

The practical driving test for category B includes the following elements:

1. Pre-drive vehicle inspection, checking the body, doors, mandatory equipment, and other safety features.
2. Basic skills for preparing the vehicle for driving.
3. Driving in various conditions, including:
 - Starting, stopping, reversing, and reversing maneuvers.
 - Entering and exiting restricted areas.
 - Parking in all directions.
 - Driving uphill and at low speeds.
4. Driving in different types of environments and situations, including:
 - Urban traffic, intersections, and environments with public transportation.
 - Driving outside urban areas and on highways.
 - Handling at higher speeds and in various maneuvering situations.
 - Quick and safe reactions in traffic situations.
5. Operating a motor vehicle in accordance with traffic rules, including:
 - Driving on different types of roads.
 - Safe overtaking and driving near obstacles.
 - Observing safe distances and proper behavior at intersections.
 - Operating traffic lights and obeying traffic signs.
 - Observing right-of-way and proper signaling.
6. Safety measures when leaving the vehicle.

During the test, the applicant is evaluated based on:

- Safe, anticipatory, and considerate behavior.
- Adherence to rules and adjustment of driving to traffic conditions.
- Respect for other road users and appropriate reactions to their behavior.
- Ability to control the vehicle in accordance with safety standards.
- Ability to maintain control and assess situations while driving.

The practical driving test includes a pre-drive inspection of the vehicle. The test must last at least 30 minutes.

In case of serious rule violations or endangerment of safety, the test is immediately terminated, and the applicant is assessed as "failed."

The applicant may have two retake attempts. Before the third attempt, the applicant must complete the full driving training again.

Revised and condensed according to Act No. 247/2000 and Decree No. 167/2002. Prepared by Driving School REAL, Brno, 2025.
